

## **HOMEWORK**

River Charter Schools has developed guidelines for a school-wide homework policy in order to clarify general expectations for students, parents, and teachers. Each teacher will develop a classroom homework policy based on these guidelines and implement in the fall.

Homework is an important part of each student's educational program. It provides a means of teaching necessary skills of independent study and learning outside the classroom. It helps to promote good study habits and encourages students to share classroom experiences with parents.
